

DC INJECTOR IDCI

DC injector IDCI is two way DC Injector supplies LNB and/or BUC with VDC via radio-frequency cable from a single power source.

Developed for indoor.

Main parameters:

Frequency range, MHz

950-2150

RF and interface parameters:

Impedance & type of RF connectors, Ohm	50 Ω (N-type); 75 Ω (F-type)
Insertion loss, dB	<1.0 (full band)
Flatness, dB	± 0.5 (full band) ± 0.2 (any 36MHz)
Return loss, dB	17
Power supply:	
Supply voltage, VDC (up to)	24
Maximum current, A (total)	4
Mechanical:	
Dimensions, mm	115x45x80
Weight, kg	0.15

Taking into consideration that we (UMT LLC) are developer and system integrator, also do not stop on our technical growth and improvement, know that view of all our devices and equipment including their technical parameters may be different from pictures presented on website and parameters listed on each device webpage.

Note! All details customer has to confirm in advance during ordering and before payment. Those parameters that were not specified and / or were not agreed while ordering will be implemented as basic at the discretion of the manufacturer. Each our customer has 1.5 year warranty and 7 year aftersales support for whole range of our products.
