

SSA-KUV180

SSA-KuV180 is Short Sector Antenna.

It has:

Light weight + Compact size + High gain

Radiation pattern of 180 degrees and V-polarization

Beam(H):180°; Beam(V):15°

Frequency range: 10.7-14.4 GHz

Gain: 10.6 dB

It is designed for Ku-band

SSA-KuV180 is Ku-band short sector antenna which has radiation pattern of 180 degrees in horizontal plane and wide frequency range of 10700 – 14400 MHz.

Key features:

- Reliable design
- Light weight
- Compact size
- High gain

- Transmit and receive Ku-band signals
- Applied as a part of broadcasting station, repeater, interactive microwave or video surveillance systems

Main parameters:	
Frequency range, GHz	10.7 – 14.4
Gain, dBi, min	10.6
VSWR	1.8
Polarization	vertical
Cross-polarization isolation, dB	25
Gain range in aperture, dB	±0.5
Beam parameters:	
@horizontal	180-195°
@vertical	12-16.5°
Directional diagram tuning, deg:	
Elevation angle	±20° (-20°...0° or 0°...+20°)
Azimuth	360° (around the pipe)
RF and interface parameters:	

Input power, W	20
Environmental:	
Temperature range, °C	-50 to +80
Humidity	100% where 25°C
Mechanical:	
Size, mm	320x280x39
Weight (including holder), kg	1.5
Mounting	Installation on the pipe diameter up to 45 mm
Body	Dust/moisture proof

Taking into consideration that we (UMT LLC) are developer and system integrator, also do not stop on our technical growth and improvement, know that view of all our devices and equipment including their technical parameters may be different from pictures presented on website and parameters listed on each device webpage.

Note! All details customer has to confirm in advance during ordering and before payment. Those parameters that were not specified and / or were not agreed while ordering will be implemented as basic at the discretion of the manufacturer. Each our customer has 1.5 year warranty and 7 year aftersales support for whole range of our products.
